

MOTHER TERESA NURSING INSTITUTIONS

A VISION FOR THE
FUTURE OF HEALTH

**Mother
Teresa**

JALAHALLI EDUCATION SOCIETY (R)

PROSPECTUS

Miss. Florence Nightingale The Nightingale Pledge

I solemnly pledge myself before God and in the presence of this assembly, to pass my life in purity and to practice my profession faithfully. I will abstain from whatever is deleterious and mischievous, and will not take or knowingly administer any harmful drug. I will do all in my power to maintain and elevate the standard of my profession, and will hold in confidence all personal matters committed to my keeping and all family affairs coming to my knowledge in the practice of my calling. With loyalty will I endeavor to aid the physician, in his work, and devote myself to the welfare of those committed to my care.

THE SPIRIT BEHIND THE COLLEGE

MOTHER TERESA an angel of mercy

Mother Teresa was perhaps God's greatest gift to mankind. Her life was a saga of love and compassion. She dedicated her life to serve the "Poorest of the Poor", Inspired by her service towards humankind and trailing through her footsteps, the Jalahalli Education Society began the humble work of providing quality education to children in 1981, the year Mother Teresa was awarded The Nobel Prize

HEALING - AN ART AND SCIENCE

"I attribute my success to this - I never gave or took any excuse"
- Florence Nightingale

Doctors and nurses merely apply curative measures, but nature is the true healer.

Service is the crux of nursing, and the demand for true blue, passionate health care professionals, who care is on the rise around the globe.

Bangalore is a pioneer in the field of nursing and health care in Karnataka. Being the business hub of the south, and software capital of the country, Bangalore is seeing a rise in the demand for quality health care. The need for Geriatric care is also on the rise considering the growing elderly population.

Mother Teresa's School and College of Nursing is located at the hub of this growing requirement. We cater to both Graduate (Basic BSc. and PB.BSc.,) and Diploma courses in nursing. Our curriculum includes both the technical and humanitarian aspects of the field of nursing.

We believe deft care giving is the product of sound technical skill, experience and compassion and try to instil all these qualities in our students in ample proportions.

Our vision is to plug the gap in the industry and to create a culture of efficient healers for the future.

EXPERT INSIGHT

Joint Secretary

Hard work is litigated to a high quality performance. This combined with keen insight is inseparable in enhancing academic performance.

The Management, therefore, is committed to creating an aptly valuable future for the institution. Creating a masterpiece of pristine quality in education is happening right now!

Our Team - Inspired and Inspiring!
Merge Knowledge and Wisdom!
Simple yet Profound! Interactive and enjoy the process of learning and teaching! Totally student centric and believes in passing the baton of leadership through to the youth!

INFRASTRUCTURE: STATE OF THE ART

Culture - the basis of success of any individual! This is what we provide in terms of high technology equipment; infrastructure and an ambience conducive to study and fun at the same time. Nursing is the sub set of healing and service, and our infrastructure imbibes these qualities into the student. Also in the pipeline - a multi-speciality hospital for the students to have access to quality medical staff!

MISSION

Creating a culture that hones students into thorough professionals both managerially and technically. Instigating innovation and invention oriented attitudes, while making them ready to face the fast paced professional environment. Technology is the corner stone of progress in the world, and research in science is producing phenomenal breakthroughs. We intend to provide an ideal academic environment wherein students can develop an in depth understanding of health care from a scientific and humanitarian stand point.

VISION

Inspiring young minds to chart a path of service, by giving them a platform to express creativity and intellect! Instilling in them qualities of integrity and strength so they transform the field of health care in the country and the world!

MOTHER TERESA NURSING INSTITUTION

The Jalahalli Education Society has been imparting education since 1981. We provide education from the Pre-School level upto a Bachelors' Degree. The Nursing College initiated in 2003. The institute is located in the heart of Bangalore city and is accessible and well equipped.

NOTE FROM THE PRINCIPAL

Nursing is an art of care giving. Teaching people to be efficient as a nurse is an intricate effort and a two-way street, considering nursing requires tremendous intangible qualities such as compassion, intuition and empathy.

Our intent is to help students acquire knowledge and to craft in them the attitude that helps students manage situations within the health care field as independent thinkers.

Our Focus-Creating robust undergraduate and postgraduate programmes. Now, it is important that the curriculum is serious and inspiring at the same time. Academic as well as real world relevant! This is a fine line and striking this balance is what we are attempting to accomplish. Research and technology is one pillar, managerial skills and acclimatizing to the real world environment is another. We train our students to be savvy in the real world, by acclimatizing them to practical issues and high intensity situations that are rampant in the health care industry. Handling stress is a crucial aspect of our teaching, since working constantly with ill people requires a certain amount of emotional detachment and objectivity.

Overall the Joy of Giving is the motivation, and to garner this our students are trained in the highest standards of thought and skill. Our invitation is for you to come explore our learning environment which is buzzing with intellect and garnished with compassion!

COLLEGE FACILITIES STATE-OF-THE-ART INFRASTRUCTURE

Faculty

Teachers are leaders, and hold the power to mould young impressionable minds. Our faculty is deft at dealing with young energy in all its nuances, and in moulding minds into well-honed professionals. However, we inspire and guide, and let the essence of our students shine through their individuality. Guest lecturers who are industry experts are invited for lectures on a timely basis, to give students ample exposure into real world practices.

Staff Development Program

Learning is a lifelong process. Teachers at our institution are encouraged to be students from time to time, and attend conferences and workshops regularly. This ensures that one's knowledge is constantly updated and we are in close contact with the who's who of the industry. We also present research papers at national seminars. Core activities - journal clubs, paper presentations, research activities! Training programs is a round the year activity for the staff. To teach one must be in the mind of the learner, and the point of the SDP is just this!

CNE -Continuing Nursing Education

Workshops

Workshops are a hands on learning experience. There are three workshops per year. Speakers at these workshops are renowned, and the workshops are conducted by the college, Institution and alumni!

Guest Lecture

Guest lecturers speak every two months and address the faculty of the Nursing institute. This is a part of the process of expansion, an initiative we will always be a part of at the Nursing College.

Journal Club

To instigate discussion and debate leads to progress, and hence journal club meetings are held once in two months by faculty. Conflict is the road to change, and at journal clubs all the current trends in health care and technology are put forth to be debated upon. This induces new directions in thought and awareness.

Ward Teaching Program

Ward teaching programs are conducted every month. These promote healthy teaching practices amongst the staff.

Infrastructure

Environment is so crucial in imparting quality education. We have state of the art equipment and facilities that enable advanced learning and research. There are 5 floors spread over 5 acres of land surrounded by nature. The classrooms are well equipped. There is a library, laboratory, A.V. Halls, a Computer Lab and high speed internet connectivity. The campus is sprawling with specific areas for student activity. The hostels are well organized and we have a canteen which is typical of a student friendly eat out.

Conferences

Association is crucial to change, and so the faculty are encouraged to attend national and international seminars. This is to induce a feeling of team work, and to interact with members of the community. Widening horizons happens through association alone!

Lecture Halls

Each lecture hall can accommodate 150 students. Each classroom has Audio visual aids such as OHP and LCD to enhance learning. Students are also trained in mentorship.

Laboratories

As per the INC norms we are equipped with seven laboratories:

1. Nursing Foundation Lab

The nursing lab has all the requisite equipment to ensure students learn adequate Nursing skills. We have equipment that aid in learning crucial clinical procedures. CPR equipment and mannequins that simulate the environment of actual human bodies are some aspects of the lab.

2. Anatomy and Physiology Lab

Understanding at a practical level the structure and function of the human body is the curriculum of this laboratory. Handling specimens at a core level provides a deeper understanding of the subject.

3. Nutrition Lab

Nutrition is the cornerstone of health. Students are taught various aspects of nutrition, daily calorie intake, and various nutritional requirements based on different body types. They design menus and prepare therapeutic diets, and get a first hand insight into different aspects of nutrition. The students also provide primary health care in the community through various educational programs.

4. Maternal and Child Health Lab

Understanding maternal health is crucial in the life of a nurse. At the MCH laboratory students are trained to tackle issues regarding maternal and infant care through various practical and interesting means.

5. Computer Lab

The internet is a huge resource of information and students access our all-inclusive computer laboratory to tap this resource in developing their understanding and knowledge.

6. Audio Visual Aids Room

Audio Visual Aids stimulate learning through sensory perception beyond mere intellect. Learning then becomes an experience and the efficacy of understanding and grasping the subject increases.

7. Community Lab

Mother Teresa Nursing Institution students indulge in social cause like Polio Immunization Programme, students take initiative to visit door to door of each home in surrounding providing polio vaccine to each child as a vision to eradicate polio from india for ever.

Library

The internet is a good source of knowledge. However, nothing can replace the traditional route of learning through books. There are 8000 books to choose from and subscription to journals that help update your understanding. There are CDs and DVDs as well. The library is well equipped and is complete in it's collection of information, such that the students have a one stop area to access all their queries and academic needs.

Auditorium

Our institution places an ardent emphasis on extra curricular activities. We believe art and sport add colour to our lives. Our auditorium has a seating capacity of 500 people, and is the place where a lot of fun and energy is displayed through music, theatre and other activities.

Canteen

What you put into your body greatly affects the mind. Lunch time is fun time. This is when a lot of exchange of ideas and interaction occurs over healthy north and south indian food delights.

Hostel

Accommodating students means catering to their interests and balancing this with measures to discipline them without being too autocratic. Achieving this delicate balance has been a task, but we've persisted at it. The three hostels for women are located within the campus, and the boys hostel is located adjacent to the campus. There are reading rooms, a dining and mess facilities for both boys and girls. Interns, nurses, teaching and non-teaching staff can also be accommodated.

Transportation

We have a friendly college bus for various field trips and other events. We're also tied up with transport authorities in the event that the requirement for transportation becomes more intensive.

Results

All our efforts into establishing an intriguing environment for education has paid off. The measure of success is judged based on relativity. Over 25 university ranks have been secured by our students and we churn out above average results year after year. The statistics are only progressively improving with time. This ensures that students get absorbed by a lot of quality hospitals around the country and the world.

Hospital

Practice makes one perfect. We have tied up with Sapthagiri Hospital in Bangalore, a facility which is destined to be a 1200 bed hospital. Sapthagiri hospital is located in a spacious campus in Chikasandra, along Hessargata main road. This multi-speciality hospital offer high quality care in terms of laboratories, diagnostics, medical staff and procedures. This is a haven for students, since they can exercise all their theoretical knowledge out here, in a facility that's of international quality. Nursing is all about experiential learning and our state of the art hospital provides students just that.

Extra Curricular Activities

Life is a kaleidoscope of experience and it gets richer the more we indulge. Variety is the spice of life, and at our institution we encourage students to dabble in various activities such as art, performance, sport and debate in order to expand their horizons and help cultivate their personalities. Cultural events promote social interaction amongst students and aids in their managerial and leadership qualities. NSS and blood donation camps and social initiatives sharpen their philanthropic and humanitarian sides! All in all, activities outside of academics promote healthy interaction amongst students and build all round personalities that give them an edge in the outside world.

Careers and Placements

Campus placements are abundant. The intensive training our students receive however, makes them eligible to be placed anywhere around the world. We also hone them in soft skills so they adapt themselves to situations in various countries and cultures.

Examples of some hospitals that have absorbed our students are Apollo Hospitals, Fortis Hospital, etc. Most of our protégées are working overseas. Our intent is not only to provide nursing education, but to shape the individual into a strong and efficient human being who can face life's vicissitudes with ease.

AVAILABLE NURSING COURSE

Basic B.Sc Nursing

It is a graduate nursing programme affiliated to RGUHS. Course duration is 4 years recognised by the INC & KNC. This course is offering highly skillful nursing techniques, education & administration.
